

# ***Lake Region High School Engineering Academy***

The LRHS Engineering Academy features a high-tech lab which incorporates the latest examples of technology-based equipment, computers and software. Students are immersed in fields that utilize Computer-Aided Design, 3D Modeling and robotics. The program is a skill-based technology curriculum that translates to college and industry. It combines project-based learning with the enterprise process, helping students become active learners through completion of thematic master projects.

Academy students have the opportunity to participate in job shadowing/internships, earn Industry Certification and earn College Credit while in high school.

Students may also qualify for the Florida Bright Futures Gold Seal Scholarship which may pay a significant percentage of tuition and fees to Florida public and private colleges, universities and career centers.
